

Our Mission

Thialan has always had an interest with Siddha Medicine infused by his grandmother from a very young age. For the later part in his life, when Western medicine could not heal him, he recollected his days with his grandmother and dedicated the rest of his life to heal others. This led to the birth of Thi Allan Bioherbs. It has the same loving ambition he set out with 36 years ago. Only the best and the purest products on the planet to help others heal.

When the intention is pure, so is the product.

Wild Amla

Our Product

Wild Amla (AMC), sometimes known as the 'King of Fruits' or 'Divine Medicine', is revered in Siddha and Ayurvedic medicine for over 6,000 years due to its **Anti-Aging** properties and immunity support. Amla is gaining its status in the West and is glorified as a **super food** which can boost your digestive health, improve your skin, strengthen immunity and even weight loss.

Sourced from the cold mountains of Central India (7,000 – 8,000 ft above sea level), these wild berries are a powerhouse of natural, heat-resistant, **vitamin-C complex**. The therapeutic properties of Wild Amla is also used in disease treatment, disease prevention and health promotion.

Why Our Wild Amla?

(AM-C) Living in a synthetic driven culture and a stress filled life for survival, Amla is a '**God's Gift to Mankind**'.

Our ancestors lived a life that was harmoniously close to nature to heal all ailments and stay healthy. Thus, the saying, "**Let food be your medicine and medicine be your food.**"

Dr. Szent-Gyorgyi won the Nobel Prize for the discovery of Vitamin-C, in 1937 he wrote, "The pure isolated form of Ascorbic Acid would not cure scurvy only a natural complex can do that."

The Facts

Evidence-based, Wild Amla Powder Benefits:

- ♦ **Natural immunity booster:**
Lowers the risk of many infections by strengthening the immune system. It has high amounts of antioxidants, that helps reduce free radical damage to cells as well as strong anti-microbial action due to rich amounts of **complex vitamin-C**.
- ♦ **Treats digestive disorders:**
Allows for better digestion without producing excess acids in the stomach. It helps deal with pitta imbalances like constipation and inflammation of the stomach. It is the only fruit that is able to balance all three elements : Vayu, Pitta, Khaba.
- ♦ **Regulates blood sugar levels:**
Rich source of SOD, chromium and phenolic compounds that help lower blood sugar.
- ♦ **Treats hyperacidity and stomach ulcers:**
The alkaline nature of the powder helps stomach ulcers and acid refluxes by protecting stomach lining.
- ♦ **Detoxifies:**
Rich in dietary fibers, SOD and phenolic compounds that aid in better bowel movements, eliminating toxin build-up and purifies the blood.
- ♦ **Supports weight loss:**
Effectively reduces hunger cravings and keeps you feeling full.
